EXPERIENCE

RLS Digital

Owner/Operator
March 2017 - Present

RLS Digital is a consulting firm I created to help businesses and organizations better leverage the web and digital platforms.

Isobar

Experience Design Lead
June 2009 - March 2017

In this role, I am responsible for designing the user experience for clients. On the user experience team, I work with functional, visual design and developer resources to help produce high quality digital products for clients. Project details available upon request.
